

A 3x2 grid of six apples, each showing a different color variation (red, yellow, green, and combinations) to illustrate the effect of color channels. The apples are arranged in two columns and three rows. The top row shows a red apple on the left and a yellow apple on the right. The middle row shows a yellow-green apple on the left and a red-yellow apple on the right. The bottom row shows a green-yellow apple on the left and a red-yellow apple on the right. The background is white with faint, repeating text from the original image.
